

SANNI JAMIU OLADAYO

Senior Mobile & Full-Stack Engineer | React Native | Fintech | AI & Automation

Lagos, Nigeria | +234 803 287 7945 | sannioladayo16@gmail.com | linkedin.com/in/jamiusanni | github.com/EmjayTech

PROFESSIONAL SUMMARY

Senior Mobile & Full-Stack Engineer with 5+ years of experience building secure, scalable web and mobile applications across fintech and edtech. Specialist in React Native and TypeScript, with strong backend depth in Node.js and Firebase. Proven delivery of mobile banking features, payment systems, wallet services and cross-platform apps for Android and iOS, from architecture through App Store and Play Store release. Founder of an edtech startup and an experienced mentor, comfortable owning features end-to-end in fast-paced, remote-friendly teams. Available immediately.

TECHNICAL SKILLS

Mobile: React Native (Android & iOS), Expo, App Store & Play Store deployment

Frontend: React.js, TypeScript, JavaScript (ES6+), modern UI/UX patterns

Backend: Node.js, REST API design, microservices architecture

Firebase: Authentication, Firestore, Cloud Functions, Storage, Realtime Database

Databases: MongoDB, PostgreSQL, MySQL

Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD

Payments: Payment gateway integration, wallet services, PCI-DSS compliance, fraud detection

AI & Automation: n8n, Make, Zapier, Voiceflow, AI agents, RAG workflows, Vapi, Twilio, webhooks

Practices: Agile/Scrum, TDD, code review, Git/GitHub, system design

PROFESSIONAL EXPERIENCE

Senior Software Engineer (Contract) | Stanbic IBTC Bank

2025 – 2026

- Built and maintained high-performance mobile banking applications in React Native and TypeScript for Android and iOS.
- Developed secure financial features, including authentication, payments and transaction processing, in line with banking compliance standards.
- Integrated backend APIs and Firebase Authentication to deliver seamless, secure user sessions across mobile and web.
- Improved app performance and eliminated critical crashes through architecture optimisation and proactive debugging.
- Contributed to code reviews, system design discussions and Agile sprint planning within a cross-functional team.

Founder & CTO | EdMira (EdTech Startup)

2025 – Present

- Founded and lead development of an AI-powered learning platform for university students across Africa, built with React Native, Node.js and MongoDB.
- Architected the backend on Firebase (Auth, Firestore, Cloud Functions, Storage) for real-time data sync, notifications and scalable services.
- Built AI-driven quiz features and integrated payment systems to drive engagement and subscription revenue.
- Lead a multidisciplinary team of developers, designers and content creators; shipped production apps to both the App Store and Play Store.

Chief Technology Officer | ShopPay (FinTech / E-commerce)

2023 – 2025

- Led end-to-end engineering of an e-commerce and payments platform, scaling to 1,000+ users with 99.9% uptime on AWS microservices.
- Reduced payment processing failures by 30% by building a secure, high-speed transaction system with fraud detection (PCI-DSS compliant).
- Cut server costs by 40% while improving performance through Docker/Kubernetes containerisation and automated scaling.
- Increased sales by 25% by launching a React Native mobile app with AI-driven product recommendations.

Senior Developer & Tech Educator | dervacHUB

2023 – 2025

- Built web applications for secondary schools as part of a collaborative development team.
- Led third-party API integration projects that reduced data redundancy and improved data quality.
- Maintained thorough documentation of code, processes and technical specifications.
- Ran workshops and coding bootcamps on the team's tools, languages and frameworks.

MENTORING & COMMUNITY

Mobile Development Mentor (Contract) | Axia Africa 2025

- Mentored a cohort in React Native and JavaScript through live coding sessions, code reviews and deployment workshops; helped learners build portfolio-ready apps and worked with the curriculum team to improve course content.

Student Moderator, AI & Automation | TS Academy May – Aug 2026

- Coordinated between students and tutors, relayed learner feedback, and supported peer collaboration on n8n, Make, Zapier, AI agents and RAG workflow projects.

Founder | Miratech Institute

- Founded a tech school that trains new developers in modern web and mobile development.

SELECTED PROJECT

Automation Hub | Automated Event Registration & Payment Workflow (n8n)

- Designed and built an end-to-end n8n workflow covering registration, payment verification, capacity management, ticket and QR code generation, and automated email notifications.
- Integrated form submissions, Google Sheets, Google Drive and Gmail, with separate capacity logic for physical and virtual attendees.

EDUCATION

M.Sc. (Distinction) | University of Lagos 2021
B.Sc. (Second Class Upper) | University of Lagos 2017

CERTIFICATIONS & AWARDS

- Outstanding Tech Leadership Award, Dervac ICT Hub (2024)
- Cybersecurity & AI, Harvard Online
- Full Stack Development, Harvard Online & Udemy
- AI & Automation Specialist, TS Academy
